

# How to Determine Your Ring Size

## Printing Instructions

1. To obtain accurate measurements, please download this PDF to your computer and print this document at a page size of 100 percent.
2. Verify the page scale setting prior to printing by checking your printer dialog box. Under the page scaling option, select "none" or uncheck the box for page scaling.
3. Compare a ruler or U.S. Quarter with the guides on the right to ensure your printed document is the correct size. The marks of the ruler should match precisely and the U.S. Quarter should completely fill the circle shape.

---

## Measure the finger:

1. Cut out the pattern, followed the dashed lines
2. Cut the slit between the black arrow and letter "A".
3. Fit the end of the pattern into the slit you just made.
4. Put this pattern around your finger and pull the pointy end of the pattern and find out the size of your finger.
5. Note that the pattern is in US size so please refer to the size chart above to find your size for the desired country.
